

“30 years supporting the growth of the aviation industry in Latin America”

## Fastcol Inc

Since its foundation in 1988, Fastcol Inc. has provided quality aeronautical equipment and services for Latin America and has successfully represented worldwide- recognized companies in the aircraft industry. Our Headquarters are located in Miami, Florida. We provide our customer with a wide range of products and services, including parts and repair services for for helicopters, airplanes and land equipment for both the civil and the military sectors. During all these years we have built solid commercial relationships with our customers, vendors and Repair Stations.
